OBJECTIVE

Aspiring Web Developer with 1 of expertise in designing and developing scalable and robust web applications. Proven track record of studying and implementing modern web paradigms and frameworks. Looking to make use of and hone these skills with my first official job in the industry!

EXPERIENCE

Web Application Developer

Modern Tagalog | Remote, CA | 2021 - Present

- Implemented auto translated chat page to help people converse in Tagalog and learn more easily.
- Created original schema design for the relational database that runs the application.
- Used express, node-mysql, and socket.io to quickly save chats in the database.
- Contributed over 90 commits to the project, showable on our private github repo (code samples also will be provided on cover letter)

Web Application Developer

Movie Poster Project | Remote, CA | 1st Quarter 2024

- For a college final, I created a javascript implementation of a movie poster website that allowed filtering by author, genre, and release date.

Web Application Developer

C# School Project | Remote, CA | 1st Quarter 2024

- Implemented over 20 classes for various assignments at school, complete with getters, setters, and every possible type of data type.

Operations Team Lead

Call Center Company | Remote, PH | 2018-2021

- Sends direct reports, performance deck updates to clients; Takes in Supervisory calls; ability to perform and cooperate within a team in driving performance; Conducts real-time coaching and feedback sessions with agents to address Areas of Improvement;
